This application is in condition for allowance except for the following formal matters:

Figures 24-28 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The abstract of the disclosure is objected to because it corresponds to claims directed to a lateral semiconductor device, which has already been allowed. The abstract should correspond to a vertical semiconductor device as in the instant claimed invention. Correction is required. See MPEP § 608.01(b).

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not disclose the first conductivity type buffer layer formed in one surface portion of the first conductivity type base layer, and a second conductivity type drain layer selectively formed in a surface portion of the first conductivity type buffer layer as claimed.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
